Distortion of Core Manifestation Body via Black Goo, its Re-encryption, and its Relation to Phantom Reality Mohsen Paul Sarfarazi, Ph.D.

Introduction

- The following short essay is the result of response to a question posed by a soul family member and several others who have expressed interest in the subject of black goo:

Question:

- What if being embodied is limiting to the soul? Hunger, thirst, all physical desire? Even fear of pain? What if all that stuff is just illusion? What if you could exist outside of the body? Things would be different right?

Response:

The Core Manifestation Body

- Actually you have a Core Manifestation Body that was initially designed to be fully aligned with the frequencies of White Light emanating from the God-SOURCE.
- The process of physical manifestation is as follows:
 - 1. The Eternal Spirit Body creates the layers of the Dark Matter Body.
 - 2. The Dark Matter Body that represents your Core Manifestation Body creates the layers of your Lightbody.
 - 3. And, finally, the Lightbody creates the layers of the Physical Matter Body at the atomic level.

- And, now, the Dark Matter Template and the Dark Matter Body are coming online and activating a new functional level of connecting the Earth Body to the Eternal SOURCE flow.
- The Dark Matter Template is the Blueprint on which the Eternal SOURCE quantum units build and generate the layers of Eternal Light.
- Thus, Dark Matter is a form of a matter body that is initially emerges from the Eternal Spirit Essence.

The Black Goo and Phantom Reality

- The planetary body and its inhabitants have suffered from massive levels of reversal AI programmed consciousness.
- It is infected and suffers from the black subtle forces in the Earth's dark matter elemental field, a phenomenon that is referred to as the "black goo."
- Black goo is the product of nanotechnology, which entails the manipulation of matter on an atomic, molecular, supramolecular, or more appropriate to our account of black goo, at the quantum level.
- Black goo represents the elemental essence of artificial intelligence as opposed to organic consciousness.
- Black goo is a product of black hole technologies that was orchestrated purposefully by the fallen forces of negative aliens in order to condemn Earth and its inhabitants into a scheme of unconsciousness imprisonment.
- Thus, succinctly speaking, black goo represents the corrupted elementals of Earth distorted via a form of artificial intelligence machinery.
- And, it connects directly into the AI fields of the phantom Earth timeline.

- The nature of this artificial or virtual reality scenario is, in essence, to run holographic fantasies akin to movies or virtual reality shows in these timeline loops, while condemning humanity to futile cycles of reincarnations due to negative aliens and their doomsday AI machinery, the dark matter template has been converted to and has been filled with this Alien sourced Black Goo in certain areas on the planet.
- Thus, it is all the concoction or product of a virtual type reality with reversal elementals that come out of the AI technology and these black magic grids.
- And, the way it has historically manifested itself is through twisted and violent psychotronic war machinery and weaponry that feeds on hypocrisy, superstition and martyrdom of its human victims through blood sacrifice.
- This also has created a form of artificial intelligence mind control software programming affecting the Earth humanity compelling them to indulge in self-destructive behaviors that has brought wars and pestilence, sexual misery, pain and sufferings to the public.
- There is certainly evidence that the black goo can partially bond itself to human DNA.
- This is the reason for humanity's incredible self-destructive behaviors that suggests the lower dimensional (3D) humans as carbon-based lifeforms, in essence, behave in such insane manners.
- The bonding of the black goo to the human DNA is akin to embodying artificial intelligence alien machinery.
- In this respect, the lower dimensional human that is under negative aliens' severe mind control programming practically behaves as an

- robot or automaton.
- And, such tendency has particularly been exasperated as of lately, as the negative aliens feeling desperate with regard to losing the war

on human consciousness, and therefore, have embarked on a highly aggressive scheme of mind control in order to extract as much loosh they can muster from humans, as well as a feeble campaign in order to establish their control on humanity's consciousness.

The Re-encryption of the Dark Matter Core Manifestation Body Template

- The Dark Matter Body is now undergoing a process that resembles full resurrection into light matter, at which point the Elemental Matter or atomic matter of the body has been resurrected into an Eternal Light Substance Body.
- The state of resurrection that is now transpiring is alchemically transforming the Dark Matter Body through the intense heat of spiritual fire.
- It is now erupting into a state of pure light matter and what defines the building of the Eternal Spiritual Body.
- As of recently, as a result of massive magnetic force discharge, the Dark Matter Body of the Earth has been activated, which now functions outside of the influence of black hole technology and its suppression-oppression.
- This translates to generation of more "pranic" or "life energetic forces" that is now a new light body for the Earth (on the macro or planetary side) and its inhabitants such as us humans (on the micro or personal side).
- These represent major geomagnetic changes occurring within the Earth body that are activating and upgrading the organic planetary Dark Matter Template.
- This represents a reduction in the effectiveness of the negative aliens' technologies that have been artificially controlling the magnetic and gravitational fields of Earth emanating from the lunar

forces being originated in Saturn and transmitted to Earth via the Moon station.

- Note that the Dark Matter Body is the connection link between the Eternal Light Spiritual Source Body and the finite level of the light source body.
- It is what builds the personal and planetary layers of the Lightbody in a quantum manner for the material atomic body.
- However, the purging of AI intelligence machinery is continuing and is ever so strong, thanks to the benevolent efforts of the Founder-Guardians and their cohorts that include the re-encryption of the human DNA and its morphogenetic field.
- Meanwhile, it is highly recommended for the human beings of this lower dimensional consciousness field to learn, and indeed, to strive to hold and accrete the highest crystalline frequencies of the liquid plasma consciousness field that is before us.
- And, this means living from the heart and resorting to one's intuitive intelligence instead of being plagued by the (not so) logical strives of the brain that are easily controllable through negative impulses as dictated by the negative aliens' mind control technology or machinery (which is, nevertheless, being dismantled and collapsing).
- But, remember that humans are creatures of habit.
- And, it is very easily to remain entangled in a web of repetitive self-destructive behaviors that has been the state of affairs for humanity for countless millennia, who have been continuously reincarnating within the same prison of unconsciousness.
- This is especially potentially tragic as for many, this is the only pattern of living they have known for millennia.
- In other words, it appears to be the 'norm' for many to undergo such incredible episodes of struggles and pains and discomforts, seemingly being used to the advent of 'misery.'

- By simply adopting an alternative way of experiencing the sojourns of life, which is being awoken and alert and steadfast in NOT repeating the past life experiences by adhering to negativity, anxiety, fear, anger, conflict, separation and war, etc. and by facing the opponent and saying NO, one can defeat the negative aliens without violence.
- And, this in turn, leads to annihilation of negative aliens' black goo and purging it from your DNA in due course.
- Thus, it remains to be emphasized again that alien black goo has infected the personal and planetary dark matter template on Earth.
- And, help is here and the campaign of freeing humanity from consciousness enslavement as well as resurrecting and reclaiming the lost souls of Tara, etc. is very well in progress by such dedicated benevolent beings as the Aurora and the Paliadorians.
- In particular, the Aurora Krystal Matrix Re-encryption of the Elemental Body is in progress with the mission to restore humanity and its morphogenetics back to the crystalline consciousness initially devised by the Prime Creator and implemented by ITS delegates (the Founders-Guardians of the Nebadon Universe).
- Note that our time matrix, our consciousness reality, is evolving. It is transforming now and it is radically changing the structure of matter.
- In turn, the changes in the structure of matter, is changing our morphogenetics and our bodies. It is changing our Dark Matter Template Body, which is also been referred to as our "Rasha."
- In turn, this is changing our consciousness body and the extent of its awareness.
- In fact, currently, planetary body is shifting in frequency of consciousness accreting more energetics of the true divine white Light.

- And, this is changing the entire configuration and structure of our lightbodies. In other words, the process of genetic mutations for the human race has already begun.
- These shifts in our genetics are affecting our physical body as well as its position or orientation in the space-times.
- In fact, our planet Earth has already undergone and completed a Magnetic Peak Cycle.

- As a result, a massive amounts of magnetic force has been discharged into the Earth.
- These magnetic changes have transpired as a result of many changes that have occurred in the Particles of the elemental matter at Subatomic and quantum level.
- As a result, both the Earth and its inhabitants are being transmigrated into the next and the higher Harmonic Universes.
- Accordingly, all communication systems that connect us and the Earth with these levels of celestial light body structures, namely, our own core manifestation body is undergoing fluctuation and reconfiguration.
- Thus, we are rebuilding interstellar links that reconnect us and the Earth via new portals that realign us with multiple star systems and celestial bodies.
- More specifically, the artificial and false 23° wobble of the planetary staff is realigning itself.
- This artificial wobble was the cause for our disconnection from the various vortices and power grids of a megalithic structures that was initially in place and was, indeed, part of a Cosmic Holographic Geography or morphology.
- The Cosmic Holographic Geography defines the levels of geometric intelligence of all celestial bodies or star systems in our local universe.

- And, such a system was initially connected into the surface grid of our planet.
- However, this complex system of holographic geography was disrupted by the negative aliens.
- Namely, as a result of negative aliens' nefarious artificial intelligence doomsday machinery being put in place millennia ago, we effectively became 'separated' from the rest of the Cosmos.
- And, indeed, then the cliché of whether "We are Alone" was injected into our holographic reality via holographic inserts or apertures whose mission was mind controlling-mind sliding of the public, therefore condemning us into a state of unconsciousness enslavement.
- Now that we are moving into the next and higher Harmonic Universes, there are new communication systems that are now coming online, helping us to realign our dormant Earth portals to these megalithic structures.
- And, although some of these portals and structures are on the surface of the Earth grid and are visible to us, mostly are obscured and reside in the underground and in certain ways that make them impossible to be controlled by negative aliens.
- These portals afford a massive shift occurring at the quantum level, effectively changing the architecture that governs specific functions of our matter body as well as our consciousness.
- And, as it was pointed out earlier, this all has to do with the function of our Dark Matter Template Body (or Rasha body) function relevant to our eternal spiritual consciousness.
- In other words, these new changes govern the function of our matter body and its links to our consciousness body, and in turn, into the eternal spirit of the God-SOURCE.
